

## Instructions for Contributors

The *Dengue Bulletin* welcomes all original research papers, short notes, review articles, letters to the Editor and book reviews which have a direct or indirect bearing on dengue fever/dengue haemorrhagic fever prevention and control, including case management. Papers should not contain any political statement or reference.

Manuscripts should be typewritten in English in double space on one side of white A4 size paper, with a margin of at least one inch on either side of the text and should not exceed 15 pages. The title should be as short as possible. The name of the author(s) should appear after the title, followed by the name of institution and complete address. E-mail address of the corresponding author should also be included.

References to published works should be listed on a separate page at the end of the paper. References to periodicals should include the following elements: name and initials of author(s); title of paper or book in its original language; complete name of the journal, publishing house, or institution concerned; volume and issue number, relevant pages and date of publication, and place of publication (city and country). References should appear in the text in the same numerical order (Arabic numbers in parenthesis) as at the end of the article. For example:

- (1) Nimmannitaya S. Clinical spectrum and management of dengue haemorrhagic fever. The Proceedings of the International Conference on Dengue Haemorrhagic Fever, Kuala Lumpur, September 1-3, 1983:16-26.
- (2) Gubler DJ. Dengue and dengue haemorrhagic fever: Its history and resurgence as a global public health problem. In: Gubler DJ, Kuno G (ed.), *Dengue and dengue haemorrhagic fever*. CAB International, New York, NY, 1997, 1-22.
- (3) Nguyen Trong Lan, Nguyen Thanh Hung, Do Quang Ha, Bui Thi Mai Phuong, Le Bich Lien, Luong Anh Tuan, Vu Thi Que Huong, Lu Thi Minh Hieu, Tieu Ngoc Tran, Le Thi Cam and Nguyen Anh Tuan. Treatment of dengue haemorrhagic fever at Children's Hospital N.1, Ho Chi Minh City, 1991-1996. *Dengue Bulletin*, 1997, 22: 150-161.

Figures and tables (Arabic numerals), with appropriate captions and titles, should be included on separate pages, numbered consecutively, and included at the end of the text with instructions as to where they belong. Abbreviations should be avoided or explained. Graphs or figures should be clearly drawn and properly labeled, preferably using MS Excel, and all data clearly identified.

Articles should include a self-explanatory abstract at the beginning of the paper of not more than 300 words explaining the need/gap in knowledge and stating very briefly the area and period of study. The outcome of the research should be complete, concise and focused conveying the conclusions in totality. Appropriate keywords and a running title should also be provided.

Articles submitted for publication should be accompanied by a statement that they have *not* already been published, and, if accepted for publication in the Bulletin, will not be submitted for publication elsewhere without the agreement of WHO, and that the right of republication in any form is reserved by the WHO Regional Offices for South-East Asia (SEARO) and the Western Pacific (WPRO).

One hard copy, original and clear figures/tables and a computer diskette indicating the name of the software, of the manuscript should be submitted to:

Manuscripts received for publication are subjected to in-house review by a professional expert and are peer-reviewed by experts in the respective disciplines. Papers are accepted on the understanding that they are subject to editorial revision, including, where necessary, condensation of the text and omission of tabular and illustrative material.

Original copies of articles will not be returned. The principal author will receive 10 reprints of his article published in the Bulletin. A PDF file can be supplied on request.
