

OTHERS

Furthermore, the following recommendations also resulted from the CSR, and were endorsed by sectoral representatives at the national Workshop :

- Formulation of a National Policy for the promotion and management of environmental health, thereby ensuring a healthier living.
- Action on environmental education and awareness programs should be initiated for medical professionals, related policy planners and administrators.

- Develop strategies in respect of healthy environment on the basis of research findings of the environmental scientists.
- Documentation and dissemination of case studies and experiences of various organizations and sectors about environmental health hazards.
- Increased coordination with other agencies / organizations, including the establishment of a network between the Ministries of H&FW, Agriculture, Communication, Industries, Education, Environment, LGRD&C, Works ; Local Government bodies, DOE, NIPSOM, various Chambers, BMRC and NGOs.
- Establishment of advocacy groups for mass awareness and creation of a "constituency" / lobby for creating demands for safe environment.
- Enhancement of capabilities of relevant organizations and agencies to monitor environment quality.
- Strengthening of environment-related laws and their application.
