

BULLETIN OF THE WORLD HEALTH ORGANIZATION

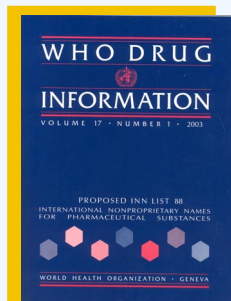

Expanded in 1999 by placing research findings and policy-relevant discussions side by side, the *Bulletin* aims to give public health policy and practice guidance based on the best evidence available, while also encouraging closer links between scientific investigation and the art of helping populations to lead healthier lives.

ISSN 0042-9686; monthly (approx. 100 pages per issue); 2005, Vol. 83

Ind. Rs. 1,500/-

WHO DRUG INFORMATION

WHO Drug Information communicates pharmaceutical information that is either developed and issued by WHO or transmitted to WHO by research and regulatory agencies throughout the world. The journal also includes regular presentations of newly proposed and recommended International Non-proprietary Names (INN) for Pharmaceutical Substances.

ISSN 1010-9609; quarterly (approx. 60 pages per issue); 2005, Vol. 19

Ind. Rs. 450/-

WEEKLY EPIDEMIOLOGICAL RECORD

For more than seven decades, the *Weekly Epidemiological Record* has served as an essential instrument for the collation and dissemination of epidemiological data useful in disease surveillance on a global level. Priority is given to diseases or risk factors known to threaten international health. Includes a copy of *International Travel and Health 2005*.

ISSN 0049-8114; weekly; 2005:80th year

Ind Rs. 1,500/-

PAN AMERICAN JOURNAL OF PUBLIC HEALTH

Communicates original research findings relevant to health problems in the Americas.

ISSN 1020-4989; monthly (approx. 100 pages per issue); 2005: 84th year

WHO Global Subscription

With emerging diseases threatening our small world, access to essential information is key to prevention, control and response.

By subscribing to **WHO Global Subscription** you gain direct access to the knowledge of world leading health experts who contribute to the work of WHO by setting standards and providing guidelines and advice on public health issues globally.

Information is provided to you as soon as it is published, keeping you abreast of the latest recommendations from the leading authority on matters of public health.

You also save substantial time and money by receiving the collection without having to search for it on various databases.

WHO Global Subscription provides annually a comprehensive collection of journals, key reports, manuals and books produced by WHO. A detailed list of information products included in the WHO Global subscription appears overleaf.

This collection will help scientists, policy makers, physicians and health professionals throughout the world deliver informed advice and better care, thus ensuring increased prevention and control of many diseases and conditions prevalent in the world.
