**Objectives of the Programme:**

A Sexual and Reproductive Health and Newborn Care Specialist will be the focal point for WHO’s support for sexual and reproductive health and newborn care health activities in the camps for FDMNs, providing practical technical advice and oversight to ensure quality of care.

**Job Description:**

Under the overall guidance of the WHO Representative in Bangladesh and the Lead, Health Operations and Technical Expertise, WHO Cox’s Bazar Office, Cox Bazar and direct supervision of the Health Operations and Technical Expertise lead, the incumbent will support the Health Operations Lead and be the focal for WASH activities in the camps:

1. Assess the current situation in the camps of access for women to safe deliveries and new born care and identify the existing barriers for institutional deliveries.
2. Review and advice on the current referral system for emergency obstetric care.
3. Collect and analyze data on maternal and child health from the government and partner agencies and advice on proper recording and reporting to optimize strategic information for short and medium term interventions to improve maternal, newborn and child health in the camps and host population.
4. Adapt existing national guidelines based on WHO/international references, for effective delivery of reproductive, maternal, neonatal, child and adolescent health, including family planning services to FDMN population.
5. Identify needs and promote development/revision/adaptation of minimum service delivery package for reproductive, maternal, neonatal, child and adolescent health and relevant to the national context.
6. Provide technical advice and support to health service providers for FDMNs and the host population on sexual and reproductive health, care of newborn.
7. Assist in monitoring and evaluation of sexual and reproductive health and newborn care health activities.
8. Perform other relevant tasks as assigned.
