“Unite to fight against dengue. Dengue is everybody’s concern”

Dengue
A viral disease spread by the bite of an infected mosquito

Symptoms
- Sudden onset of high fever
- Severe headache
- Pain behind the eyes
- Severe muscle and joint pains
- Rash on the skin

Protect yourself from dengue

Protect yourself from mosquito bites
- Use mosquito nets while sleeping, even during the day
- Wear full-sleeves clothes
- Use mosquito repellants

Prevent mosquitoes from breeding
- Drain out stored water regularly

Control by fogging (during outbreaks)

Protect  Prevent  Control
