

PRESS RELEASE

World Health Day focuses on Universal Health Coverage

Ranchi, 7 April 2018: A regional consultation organized to mark the World Health Day 2018 by the World Health Organization Country Office for India, Department of Health, Medical & Family Welfare (HM&FW), Government of Jharkhand and the Rajendra Institute of Medical Sciences (RIMS) made a strong call for ensuring universal health coverage (UHC).

The event was graced by Mr Raghubar Das, Chief Minister of Jharkhand; Mr Ramchandra Chandravanshi, Health Minister; Mr Sudhir Tripathi, Chief Secretary, Jharkhand; Mrs Nidhi Khare, Principal Secretary, HM&FW, Jharkhand; Mr Kripa Nand Jha, Mission Director, National Health Mission, Jharkhand.

On the occasion of the World Health Day 2018, Dr Poonam Khetrapal Singh, Regional Director, WHO South-East Asia Region has said that the promise of UHC is bold: that all people can access quality health services, when and where they need them, without suffering financial hardship.

“Healthier populations in turn create more productive economies that raise living standards. UHC will help achieve a healthier, more equitable and secure South-East Asia Region,” she added.

“Achieving UHC has the potential to contribute to India’s social and economic growth,” says Dr Henk Bekedam, WHO Representative to India.

Commending the government for its recent bold initiatives, Dr Bekedam said, “India is firmly and steadily moving forward on the path to UHC and WHO as a partner is committed to working with the government and other stakeholders in successfully navigating this journey towards a *Swastha and Samriddha Bharat* (Healthy and Prosperous India).”

The event focused on various facets of UHC and the way forward in the country, sharing perspectives from the governments, experts, nongovernment organisations and the private sector. A panel discussion deliberated on the importance of efforts of each individual towards UHC and achieving the SDG targets well in time.

The Department of Health, Medical & Family Welfare, Government of Jharkhand also launched the Rotavirus vaccine on the occasion of World Health Day.

Other dignitaries present on the occasion included Mr Ramtahal Chaudhary, Member of Parliament; Dr Jeetu Charan Ram, Member of Legislative Assembly; Dr Sumant Mishra, Director-in-Chief, Health and Dr R.K Srivastava, Director, RIMS. Also present on the occasion were representatives from WHO, UNICEF and key stakeholders.

Commemorating the World Health Day, the Department of Preventive and Social Medicine, RIMS also organized awareness rally, quiz and rangoli competition for students focusing on the importance of UHC.

India on the path to UHC

The union budget has enunciated the landmark '*Ayushman Bharat*' programme, which aims at addressing health holistically through two components: (i) the National Health Protection Mission (NHPM) will cover 100 million poor and vulnerable families up to INR 500 000 per year for secondary and tertiary care, and (ii) strengthening primary health care through 150 000 Health & Wellness Centres.

These twin initiatives are programmatic follow-up of the policy road-map provided by India's National Health Policy 2017, which clearly articulates UHC as a goal. The successful implementation of these programmes would accelerate India's journey towards ensuring health for all, especially, the most vulnerable who are pushed into poverty due to high out-of-pocket health expenditures.

About World Health Day 2018

The WHO has declared Universal Health Coverage (UHC) as the theme for this year's World Health Day. Celebrated every year on 7th April, in 2018, the WHO is calling on world leaders to live up to the pledges they made when they agreed the Sustainable Development Goals in 2015, and commit to concrete steps to advance the health of all people. This means ensuring that everyone, everywhere can access essential quality health services without facing financial hardship.
