
SITREP # 1: 7 December 2016 at 11.00 local time (UTC+7)

HIGH LIGHTS

- The Center for Health Crisis of Ministry of Health (CHC/MOH) reported event of earthquake, on Wednesday, 7 December 2016 on 05.03 local time (GMT+7) in Pidie Jaya District, Aceh Province.
- Based on data from BMKG (Meteorological Climatology and Geophysical Agency) epicenter was in 106 km southeast of the city of Banda Aceh at a depth of 15 km, caused by the movement of faults. Estimated 552,232 person (Pidie Jaya and Bireuen District population) affected.
- Casualties reported up to 10.00 local time (GMT+7) were 18 died, 33 severely injured and Pidie Jaya District Hospital damaged.

Affected Area and Incident Site Mapping

Map 1. Pidie Jaya and Bireuen District Location in Nanggroe Aceh Darussalam Province
On Wednesday morning, 7th of December 2016, at 5:03 am there has been an earthquake with the magnitude of 6.5 Richter Scale affected the district of Pidie Jaya, Aceh Province. Based on data from BMKG (Meteorological Climatology and Geophysical Agency) the epicenter was in 106 km southeast of the city of Banda Aceh at depth of 15 km (no tsunami reported, and tsunami warning has been lifted), activity is expected due to local Samalanga faults.

The earthquake affected the area of Busugan, Meukobawang, Pangwabaroh, Meukopuue, Tanjong, Meukorumpuet, Panteraja, Angkieng, and Pohroh villages with intensity scale VI MMI resulted damage such as collapsed buildings and cracks.

Results of monitoring BMKG until 05.30 am shows there were five aftershocks with the largest aftershock around 4.8 Richter Scale.

Casualties and Damages

- Casualties were 18 died (7 children and 11 adults), severe injury 33 person (30 fractures and 3 thorax trauma), moderate injury 122 person.
- Pidie Jaya District Public Hospital was reported severely damaged.
Response

Local Government
- Pidie Jaya Hospital patients were evacuated from the hospital and planned to be referred to nearby health facilities such as health centers and Bireuen District Public Hospital (to the south) or Pidie District Public Hospital (there are Pidie District and Pidie Jaya District which is two different district).
• Anesthetic and orthopedics mobilized from Banda Aceh and surrounding hospitals.
• Total of 11 health centers in the Pidie District mobilized to provide health assistance using the form of EMT-type 1 mobile.
• Aceh Province Health Crisis Center from Banda Aceh province capitol conducted rapid health assessment to the location.
• Public safety center in the district of Bireuen, Sigli, Bener Meriah and Aceh Utara ready to be mobilized to location.

Ministry of Health, Republic of Indonesia
• Rapid health assessment
• Establish national/local health cluster coordination, and monitor the development of the event.

WHO
• Monitoring the event closely with CHC/MOH, BNPB and in coordination with OCHA and other UN agencies.
