## 1. INTRODUCTION

### 1.1 Objective of the RFP

The purpose of this Request for Proposals (RFP) is to enter into a contractual agreement with a successful bidder and select a suitable contractor to carry out annual audits of 6 Country Cooperation Strategy (CCS) projects over a total period of 1+1+1+1 (= 4) years.

WHO is an Organization that is dependent on the budgetary and extra-budgetary contributions it receives for the implementation of its activities. Bidders are, therefore, requested to propose the best and most cost-effective solution to meet WHO requirements, while ensuring a high level of service.

### 1.2 About WHO

#### 1.2.1 WHO Mission Statement

The World Health Organization was established in 1948 as a specialized agency of the United Nations. The objective of WHO ([www.who.int](http://www.who.int)) is the attainment by all peoples of the highest possible level of health. "Health", as defined in the WHO Constitution, is a state of complete physical, mental and social well being and not merely the absence of disease or infirmity. WHO's main function is to act as the directing and coordinating authority on international health work.

#### 1.2.2 Structure of WHO

The World Health Assembly (WHA) is the main governing body of WHO. It generally meets in Geneva in May of each year and is composed of delegations representing all 194 Member States. Its main function is to determine the policies of the Organization. In addition to its public health functions, the Health Assembly appoints the Director-General, supervises the financial policies of the Organization, and reviews and approves the proposed programme budget. It also considers reports of the WHO Executive Board, which it instructs with regard to matters upon which further action, study, investigation or report may be required.

The Executive Board is composed of 34 members elected for three-year terms. The main functions of the Board are to give effect to the decisions and policies of the WHA, to advise it and generally to facilitate its work. The Board normally meets twice a year; one meeting is usually in January, and the second is in May, following the World Health Assembly.

The WHO Secretariat consists of some 7,900 staff at the Organization's headquarters in Geneva, in the six regional offices and in countries. The Secretariat is headed by the Director-General, who is appointed by the WHA on the nomination of the Executive Board. The head of each regional office is a Regional Director. Regional directors are appointed by the Executive Board in agreement with the relevant regional committee.

## 1.3 Definitions, Acronyms and Abbreviations

CCS: Country Cooperation Strategy  
HSRI: Health Systems Research Institute  
LOA: Letter of Agreement  
RTG: Royal Thai Government  
WHO: World Health Organization

## 2. BACKGROUND: DESCRIPTION OF PRESENT ACTIVITIES

### 2.1 Overview and current approach

The Country Cooperation Strategy (CCS) guides the collaboration between the Royal Thai Government (RTG) and the World Health Organization (WHO) and focuses on six priority programmes:

- Noncommunicable Diseases
- Road Safety
- Antimicrobial Resistance
- Migrant Health
- Global Health Diplomacy
- International Trade and Health

A Letter of Agreement (LOA) establishes the principles that guide participating agencies' contributions to the WHO-RTG CCS priority programs and implementation by the lead agencies. Lead Organizations are those agencies responsible for implementing a priority programme and Funding Organizations are those agencies responsible for providing funds in support of one or more priority programmes.

As per section III (Financial matters) of the LOA, each Lead Organization (or the sub-recipient agency chosen by them to receive funding and implement the activities) will facilitate the conduct of an independent financial audit of the priority program accounts. Such audits will be carried out for each calendar year (2018, 2019, 2020 and 2021) of the priority programs. Lead and/or sub-recipient Organizations will make available all relevant financial information, as well as certified statements of account, relating to implementation of the priority programs being audited and provide satisfactory explanations to any queries arising in connection with the audits referred to above.

To sufficiently substantiate charges, each Lead and/or sub-recipient Organization is expected to maintain financial records, supporting documents, statistical records and all other records pertinent to the collaboration in accordance with generally accepted accounting principles formally prescribed by the International Accounting Standards Committee (an affiliate of the International Federation of Accountants) Accounting records that are supported by relevant documentation will as a minimum be adequate to show all costs incurred under the collaboration, receipt, and use of goods and services acquired, the costs of the program supplied from other sources, and the overall progress of the program. Unless otherwise notified, Lead Organizations' and sub-recipients' records which pertain to this collaboration shall be retained for a period of five years from the date of submission of the final financial report.

### 2.2 Objectives of the present activity

The audit will assess the effectiveness and efficiency of internal controls in and financial systems of each Priority Programme implemented by respective Lead Organizations and provide recommendations on the following elements:

**Financial:** assess the correctness and credibility of financial documents and ascertain that accounts, reports, registries and other documents, including programme expenses, were correct and complete and that there were no material errors of irregularities noted.

**Compliance:** assess compliance with rules, regulations, fee schedules as per the Lead Organizations' own rules and LOA provisions

### 3. REQUIREMENTS

#### 3.1 Introduction

WHO requires the successful bidder, the Contractor, to carry out the following services:

- a) **Briefing/Training:** At the beginning of the contract, the auditor will be asked to brief and train each participating agency on audit procedures (a one-day training to take place in Bangkok in November 2018).
- b) **Information gathering:** study and understand the objectives, goals, key issues, focus areas, deliverables, expected impact and activities of each priority programme. The auditor may inspect preliminary information from programme proposals and implementation plans as well as discuss with programme managers to understand programme status, strengths and weaknesses prior to formulating an audit plan.
- c) **Risk identification and assessment:** identify risks, including specific fraud risks that may occur and would cause programme implementation to fail in meeting the set objectives and goals, including operational risks, financial risks, compliance risks. Subsequently assess the levels of risks by considering impact and likelihood of loss against the existing internal controls to identify whether they are adequate and effective in preventing and detecting risk or loss.
- d) **Programme formulation and execution:** formulate an audit programme to assess the adequacy and effectiveness of key controls to prevent and detect risk or loss and execute the audit programme as planned. Record results and gather evidence to support the preparation of the audit report.
- e) **Interview with lead agencies:** meet with programme managers and concerned persons to present the draft audit report. Discuss and gather feedback from programme managers about the findings and plans to address identified issues.
- f) **Reporting:** submit a written audit report that provides information on the work performed, the results of that work, the issues identified and recommendations to address such issues to HSRI Board and WHO in both English and Thai. The report would also be expected to include material irregularities found or suspected cases of fraud. The distribution of the written report will be subject to prior approval by WHO.

Please note that WHO is not bound to select any bidder and may reject all proposals. Furthermore, since a contract would be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to WHO's general principles, including economy and efficiency, WHO does not bind itself in any way to select the bidder offering the lowest price.

---

### 5.2 Clarification of Proposals

### 6.2 WHO's Right to modify Scope or Requirements during the Evaluation/Selection Process

At any time during the evaluation/selection process, WHO reserves the right to modify the scope of the work, services and/or goods called for under this RFP. WHO shall notify the change to only those bidders who have not been officially eliminated due to technical reasons at that point in time.

### 6.3 WHO's Right to Extend/Revise Scope or Requirements at Time of Award

WHO also reserves the right to enter into negotiations with one or more bidders of its choice, including but not limited to negotiation of the terms of the proposal(s), the price quoted in such proposal(s) and/or the deletion of certain parts of the work, components or items called for under this RFP.

### 6.5 Signing of the Contract

Within 30 days of receipt of the contract, the successful bidder shall sign and date the contract and return it to WHO according to the instructions provided at that time. Unless otherwise specified in the Contract, in the event that the Contract is a Long-Term Agreement ("LTA"), the Contractor shall offer the same prices and terms as those agreed with WHO under the Contract to other interested United Nations system agencies and to organizations eligible to purchase through WHO, it being understood that each such agency and organization will be responsible for independently entering into and administering its own contract with the Contractor. The Contractor furthermore warrants that the deliverables shall be error-free. The Contractor shall ensure that each of its employees and/or other persons and entities having access to such information shall be made aware of, and be bound by, the obligations of the Contractor under this paragraph. However, there shall be no obligation of confidentiality or restriction on use, where: (i) the information is publicly available, or becomes publicly available, otherwise than by any action or omission of the Contractor, or (ii) the information was already known to the Contractor (as evidenced by its written records) prior to becoming known to the Contractor in the implementation and execution of the Contract; or (iii) the information was received by the Contractor from a third party not in breach of an obligation of confidentiality.

In addition, WHO shall be entitled to terminate the Contract (or part thereof), in writing:

The Contractor shall also notify WHO of any other changes in conditions or the occurrence of any event which interferes or threatens to interfere with its performance of the Contract. The notice shall include steps proposed by the Contractor to be taken including any reasonable alternative means for performance that is not prevented by force majeure.
